removed, the woman is paralyzed from the waist down.

MARTINEZ ALSO HELD.

Guadaloupe Garcia, or Martines, was bound over to the Superior Court today for the shooting of his fellow-countryman, Serapio Gonzales, November 3, 1912. Ball was fixed at \$1500, and as the Mexican could not raise the amount he was lodged in the County Jail to await trial.

Martines and Gonzales had a fight last tweemer 3, 1912. Ball was fixed at the County Jail to await trial.

Martines and Gonzales had a fight last November. Genzales used nature's weapons, but Martinez used American. The result was Gonzales went to the hospital with a bullet wound in each leg and Martinez went to Mexico. There "Loupe" raised a moustache and a deafre for real money. He left the land of powder smoke and came to the land of factory smoke, where he was at once recognized by Officer Jagger, who locked him up.

MPR. Hanty R. Menroses we won the neith section for neither is considered serious.

Last night's disaster has emphasized and that he hought have one, the imperative need of additional fire delivered that the \$12,000 for bonds, on which the people will have one which was kept in operation from 7 requipment and members of the City until midnight every evening during the bonds, on which the people will have been compiled by an adding machine ber compiled by an adding machine in portion of the midning turning during the bonds, on which the \$12,000 for bonds, on which the people will have week. The number added by the week. The number added by the week of the week. The number added by the week of the week the week of the week the was at some recipied by an adding machine ber compiled by an adding machine deviction for the propersion form 7 quipment and members of the City until midnight every evenied by until midnight every evenied by the burst and the personal propersion of the week. for expenses incurred at the trial of impeachment of former Gov. Sulser, not including counsel fees, already total \$50,000 more than the \$75,000 originally appropirated to cover the cost of the trial. A special bill for \$50,000 will be introduced in the Assembly next week to meet these expenses.

One of the largest single items of expenses is for the salaries and expenses of detectives.

HOLLYWOOD HIGH WINS.

SANTA BARBARA, Nov. 8.—[Exclusive Dispatch.] Hollywood High School today defeated Santa Barbara, High School by the score of 10 to 9. Three weeks ago the locals were heaten by Hollywood on the grounds of the latter. A large crowd witnessed today's game, which was full of exciting features. The visitors were banqueted tonight by the local high school students.

It is nessed today's game, which was full of exciting features. The visitors were banqueted tonight by the local high school students.

tion of the general financial situation. Three hundred men will be put to work on the building this week, it is announced.

The new home of the Bible Institute will in reality be three separate buildings, a central auditorium portion and two thirteen-story wings, the three sections being joined by corridor "weba." From the front the Institute will present the appearance of a single large building. Considered as one structure, it will have a greater floor space than any other building in Los Angeles. The construction will be of reinforced concrete, excapting for a number of heavy steel girders. 112 feet in length, supporting the roof of the auditorium.

Architecturally the Institute will suggest the Italian Renaissance, types. A great main arcade three stories in height and consisting of nine lofty columns supporting as many arches will extend across the entire front of the auditorium portion. A heautiful arcade of nine-seen arches will break the auditorium wall at the level of the eighth story of the wings. There will be similar arcades at the twelfthstory levels of the wings themselves.

The wings will be devoted to dormitory purposes, that on the north being for men and that on the south for women. There will be a total of approximately 700 sleeping-rooms in the two. The basement of the men's building will be given over to dining-room purposes and that on the south for women. Section to the Institute will be conducted in the basement floor of the auditorium section. Here will be no assembly-room seating 900 and surrounded with class-rooms, which may by the process of sliding a few partitions be made a portion of the one auditorium section. Here will be no assembly-room seating 900 and surrounded with class-rooms, which way by the process of sliding a few partitions be made a portion of the one auditorium section. Here will be an one of the one auditorium section. Here will be accured from wide, deep courts from the rear. These courts, with their recessed arcades and colonnades, will be among the beautiful arc

Interesting details of remarkable structure.

room, which is to be largest in West.

Toof of the auditorium itself will be utilised as a roof garden.

The Bible Institute of Los Angeles was organized five years ago and until a year ago, occupied quarters in a rented building on Main street just north of Third. Pending the construction of its magnificent new homes the Institute has been housed for a year in the basement of the Temple Auditorium building. The organization has for its purpose the training of men and women for various lines of Christian work and features a thorough course of instruction in the Bible. The work long ago outgrew his facilities and it is expected that at least 700 students will be enrolled in the various course offered in the new building.

The month of November has opened busily insofar as building activities are concerned and the officials of the Bible. The work long ago outgrew building.

MORTALITY IN OCCUPATION,

Preachers and Lawyers Live Longer
Than Doctors, Indoor Workers or
Even Commercial Travelors.

[New York Sun:] Dr. Jacques
Bertillon, the statistician for the department of the Seine, has just established tables relative to the mortality in
neach occupation.

M. Bertillon says that engine drivers, men employed in wood 'utiting
and in maiting, school teachets, inwyers, and clergymen live the longest.
The mortality among doctors, chemiets, architects, lawyers' clerks, em
ployees of the postoffice, commercial
travelers, grocers, fruiterers, hatters,
and some other trades, such as
watchmaking and tanaing, B low.
Domestic servants and coachmen employed in private families have a low
death rate.

Finally, day laborers are bad lives;
so are doctors, miners, stone-cutters,
shop assistants, drivers, grooms and
jockeys, newspaper vendors and pavement merchants, printers, blacksmiths, messengers, chimney sweeps
barbers and municians.

Suicide and disbetes are two principal causes of death. Generally, it
is only persons of a certain social positien who are affected by this malady,
such as functionaries, teachers, doc
tors, lawyers, wine merchants, farmers and the clergy. The clergy are
particularly subject.

Suicide has also its high and its low
rates of occurrence, though it appears in all professions. It is rare
among the clergy. But it is frequent
among shop assistants, cutters, Jomestie servants, lawyers, doctors and
chemists.

outlay of at least \$2,000,000. He said that he and his associates had been working on the undertaking for two months or more.

The structure proposed, he declared, would be fourteen stories in height and of the latest steel frame construction. It is planned, he explained, to make it the finest hostelry west of Chicago, and to have it ready for the opening of the San Francisco and San Diego expositiona.

Dowell stated that the site at the mortheast corner of Fifth and Hill, leased several months ago by the Loe Angeles Fireproof Building Company as a site for a thirteen-story office block, and for the control of which the company has recently brought suit against the owner, Dr. A. M. Spinks, will not under any circumstances, be made the site of the projected hotel. He declared that in the controversy as to the right of his company to keep the lease, the office building originally planned, would be started at once.

WITH THE BUILDERS.

Plans Out for Five-story Fireproof Loft Building for Omar Street. Factory Contract Det. Plans have been completed by

Plans have been completed by Architect Frank Le Stiff for a five-story reinforced concrete loft building to be erected at Omar and Boyd streets for J. M. Brown, an eastern capitalist. The structure, which has been leased to the printing firm of Kellow & Brown, will cost about 145,000 and will be 69x100 feet in size. The building will be thoroughly modern, both in construction and appointment.

E. P. Parcher, a Hollywood designer, is finishing plans for a four-story brick store, office and apartment building to be erected at Highland avenue and Hollywood boulevard for C. E. Toberman. The structure will cost about 135,000. It will be started in ten days.

W. A. Wachter has commissioned the firm of Train & Williams to draw plans for a three-story brick building to be erected on the north side of Fourth street east of San Pedro. The structure will contain four stores and sixty sleeping-rooms. It will be 75x100 feet in size.

The . Huntsberger-Reed Company has been awarded the contract for the construction of the factory building projected by the Panama Rubber Company at Compton. The structure will be 150x250 feet in size and a single story in height.

has been awarded the contract for the construction of the factory buildings as against one for Los Angeles. Each city issued fourteen permits for brick-buildings of the class "C" type. Los Angeles led in frame structures, with 432 permits, as compared with 177 permits in San Francisco. These buildings, which are for the most part private residences, represent a valuation of \$1,967,202 in Los Angeles and of \$527.887 in the Bay City.

To date for the year the totals here are far in excess of those in San Francisco. In Los Angeles, in fact, there have been granted three times as many permits for all kinds of buildings as have been taken out in the Bay City. From January 1 to October 31, inclusively, 14,334 permits, representing new buildings to cost in the aggregate 332,8284,812, were issued in this city. During the same time San Francesco issued 4758 permits for buildings to cost \$17,936,929.

GREAT PROSPERITY IS DAWNING.

EVER before in the history of this country was the opportunity for progress and success so great as it is today. Never before were the conditions which promote the material welfare of the people as favorable as they are at present. The people of this country have a decided advantage over the people of every other country if we make the most of it. Ours is the richest of all countries and the greatest in productive capacity, says Judge E. H. Gary, chairman of the board of directors of the United States Steel Corporation, in the Sun of New York.

A few comparative figures pertaining to this country, England, Prance and Germany, respectively, will be illustrative. They are not complete, but are typical and illuminating. They are approximately accurate. The total wealth is:

wealth is:
United States
England
Prance 65,000,000,000
Germany 60,500,000,000
The wealth per capita of population is:
United States\$1415
France 3
England\$1250 to \$1385
Germany\$1100 to \$1200
These figures are the compliation of Mr. Heifferich, director of the
Deutsche Bank, in his report to the Kaiser, except the American figures
which are from the Statesman's Year Book for 1913.
The amount of money in the United States, the United Kingdom and
Germany, respectively, is:
United States
United Kingdom 1,000,000,000
Germany 2,500,000,000
This includes the total of gold, silver and uncovered paper. Similar fig.
ares for France are not available.
The railroad milvage is:
United States
Great Britain
France 31,391
Germany 38,747
Without stopping to make computation it will readily be seen that rail-
The state of the s

As to the production of new wealth, this country in 1919 produced in cultural products alone a value of \$9,299,000,000, of which 80 per cent. was

while the product figures of other countries for that year are not yet able, it is universally recognised that the United States is far in the in the production of corn, wheat, cats, tobseco, cotton, petroleum, pig and copper; and the location of the United States in a temperate sone, her with the richness of its soil, insures an ever-increasing production ope on the average; and they are the real basis for expecting the great-interial growth and progress.

Inother fact worthy of particular mention is that the balance of trade con this country and all other countries in 1913 fiscal year amounted to 100,000 in our favor.

half-acre tract in the Eagle Rock Valley, Angelo Hessolo, a retired merchant of San Pedro, is building an attractive dwelling of the villa

1,000,000 in our favor.

As a result of our great wealth and material progress, the people gently are better supplied with the necessities of life than those of any other stry. There are exceptions depending upon local causes, but generally thing the people are better fed, better clothed and better housed; and is all important, the wages received by the worker in comparison with cost of living are far in excess of those of other countries. It is for this son that immigrants from all parts of the world are coming in by thouse and houseless of thousands.

SCHEDULE CHANGED.
To better its car service and to id delays, the Pacific Electric this is inaugurated a new schedule on Newport lime, which serves the idents of the South Coast. The new is card calls for all of the cars the hour, instead of on the hour heretofore, up to 12:45 p.m. The leaving arter that hour start from station at \$156, 4:95, 5:11, 6:16, 5, 9:26 and 11:56 p.m. The cars in hereafter run straight through to how on schedule time instead of aying at Huntington Beach to pass returning ear, as in the past. FINISHING TOUCHEA

-So in buying farm lands, give as much thought to the future value of the property as though you were buying city lots.

-Select ten, twenty or forty acres at WEST SACRAMENTO and be directly in the pathway of inevitable growth of the city of SACRAMENTO.

VANNUYS

All eyes are turned toward the San Fernando Valley and Van Nuys, its geographical, business and population center.

The coming year will witness the greatest activity and expansion the busy San Fernando Valley has ever known. Invest and locate at Van Nuys for maximum profits in every branch and department.

INDUSTRIAL-The famous Johnston Organ and Piano Factory is now located at Van Nuys, the nucleus of a growing manufacturing center. Canning and other factories are needed right now. The valley will support live home industries. Van Nuys offers the facilities and the inducements.

BUSINESS-Nearly fifty businesses of various kinds already flourish in Van Nuys, "The New Town that was Started Right." More are constantly being added to accommodate the growing needs of an increasing population. Business lots are a splendid investment in Van Nuys. Secure one of the choice sites before it is too late.

RESIDENTIAL—Expansion of Van Nuys has greatly increased values of residential lots. We have choice selections at prices that insure good profits to early buyers. The population of Van Nuys should increase at least one thousand during the next year.

POULTRY RAISING-Van Nuys is being made the Petaluma of Southern California. It is better adapted to poultry raising than any other section of the country. Get from one to ten acres in North Van Nuys Acres, WITH WATER FOR IRRIGATION, and

raise poultry, fruits and vegetables.

CALL, OR WRITE US FOR SPECIAL EDITION OF THE VAN NUYS "NEWS," CONTAINING FULL INFOR-MATION ABOUT VAN NUYS. IT WILL BE A REVE-LATION.

FREE! Automobile Excursions Leaving Headquarters, 319 S. Hill St., at 9 a.m. and 2 p. m., daily Except Sunday. Call or Phone for Reservations in Advance

Go via Van Nuys to San Fernando Mission, Aqueduct, Reservoir and Cascades. Good roads all the way.

See Van Nuys illuminated by night, over the Rose-bordered, illuminated Van Nuys Boulevard.

WE BUILD TOORDER'

So many people have wanted us to duplicate our pretty bungalows or to build to order for them on their own lots.

Some have a preference for districts where we have no property or are com-pelled for business reasons to locate in some particular neighborhood.

The unusual attractiveness of our bungalows, their substantial construction, and the good taste of the interior finish and decorations have created a demand that we propose to meet.

Hereafter we will break our rule and build to order in any part of Los Angeles, either duplicating houses we have already built or supplying new plans.

You will find our prices absolutely reasonable, consistent with fine design, best materials and superior workmanship.

Our references to those who do not know our reputation are the owners of houses in any of our tracts. We will take you to examine these houses at

If you have a lot and not the money to build, we will furnish the necessary funds.

If you have not bought your lot as yet, we will give you the benefit of expert

Our knowledge of values and the direction of the city's growth may save you from making mistakes.

We have specialized on certain types of houses that have proven not only of superior attractiveness and homelike convenience, but give you the most for

Our 64-page book of "Bungalow Plans" containing none but houses designed and built by ourselves is now ready. The address of each house is given with the illustration.

You will be under no obligation whatsoever and we will consider it a pleasure to have the privilege of consulting with you about your building, whether or not we get the order.

Victor Valley ands

\$5 to \$25 an Acre

Blue Ribbon Apple Lands

—60 miles northeast as the crow flies lies Great Victor Valley — the valley that grows apples that took the blue ribbons at the State Apple Show in Watsonville last month! By a strange force of nature the lights of Los Angeles are reflected on Victor Valley, which is at an elevation of 2750 to 8000 feet!

—that Victor Valley will grow blue ribbon apples is a proven fact! That you can get good land for apples or alfalfa here for from \$5 to \$25 an acre that is just as rich and just as productive as OTHER LAND selling for from \$200 to \$800 an acreyou can prove to yourself if you will visit Victor Valley.

rich silt and disintegrated granite soil; abundant and never failing water supply cheap; an ideal climate for pears and apples; land practically level with slope of about 60 feet to the mile; alfalfa yields 7 tons on land that will cost you only \$5 to \$25

One can't help smiling at the earnest, venomous attempts of those "high price enthusiasts" to keep Bullock's down; to prevent Bullock's from obtaining Tires and Supplies. The attempts have been so carnest, and so feeble—and unsuccessful—

—Ask the Autoist of 7 and 8 years ago what he had to pay for supplies. Ask the autoist of 5 and 6 years ago what part Bullock's played in changing these exorbitant price conditions. Ask the tire man and the dealer. They know why so many scores of auto owners are coming to Bullock's for all their tires and supplies now.

They Know Who Pioneered the Way

to Safe Savings on First Quality Supplies -Probably you have noticed the tendency to follow Bullock's lead!

—Bullock's pioneering has meant, much to owners of automobiles—Insisting always upon selling only First Quality Supplies—carrying them in great volume—maintaining large, complete, freshi varieties—Bullock's has always considered the interests of the automobile owner.

-Many have Recognized the Rightness of Bullock's Ideas and have Adopted them as their own---We have not Patented them so that every dealer who so desires is free to use them with perfect Freedom-Indeed we shall be glad to show Dealers through this great Auto Supply Section so they may obtain a clearer idea of Bullock's Methods-and perfect themselves in their use.

-We again direct the attention of the Goodyear Rubber Co. and of the B. F. Goodrich Co. and of every auto owner to these

The QUALITY of FRESHNESS

-Extremely hard to procure but never lacking in tires or tubes sold at Hamburger's. It is an iron bound rule that every auto tire or tube that leaves the Great White Store shall be absolutely fresh — an assurance that the purchaser gets the maximum value for his money.

-Our tire prices are away down. You'll save money in first cost as well as upkeep if you buy your tires here.

Pint Size Janus Vacuum Bottles at \$1.10

-You really don't know the pleasure of a "hot and cold" bottle till you use a Janus. It gives more comfort and pleasure to the autoist

than anything in his equipment.

—Before you start on a trip, fill a Janus bottle with hot coffee-and any time in the day or that night even, when you open it, your coffee will be hot. And it will stay that way for 24 hours

—In summer you can take along a cooling drink and keep it cool for 72 hours Just a hint—How about Janus bottles as Christmas gifts? Quart size \$2.70. Bottles have been selling at \$1.50 and \$2.50.

Tire Saving Jacks—Set Tire Covers, \$1.40 Each of Four Jacks at \$6.00

—If you keep your machine standing any length of time, you should use these jacks.

-Nothing deteriorates tires more than to have them stand weighted down for a length of time. These jacks are strong enough for the heaviest car. Let them

help keep your tire ex-pense down. **Buy Perfection Gas**

Savers Here at \$2.00 -Perfection is a better gas saver than you can buy in any other make for \$5.00 or \$6,00.

or \$6,00.

—Through the medium of a Perfection gas saver you can get more speed on hills. You can make your motor "pick up" quicker and you can save about 25% on your gasoline bill. The best gas saver is on sale only at Hamburger's. The best is Perfection. It won't jar loose where it is connected.

Trunk Racks at \$1.50

Used Cars You Can Depend On

E have purchased outright the en-tire used car stocks of several of the most prominent automobile concerns in Los Angeles.

Most of these cars have been rebuilt and re-painted and are fully guaranteed.

The Stock Comprises Packards, Fords, Chalmers, Franklins and others

Never before has such an opportunity been offered you. The prices at which we can afford to sell these cars insures their being snapped up quick.

Come at once for best selection.

The Used Car Shop 1019 South Olvie Street

A Revision of Prices Downward

Today we offer you a much larger car in every set, refined right-up-to-date and completely sped for only \$950-25% less than our price

Today the Overland has a longer wheel base, urger and more powerful motor, larger tires and splete equipment. In fact every individual t is larger than heretofore. Yet the price is a under the market of four years ago; is 30% ler the present market and has fully 200%

Then call on the nearest Overland dealer and minutely examine the 1914 Overland. It has a powerful 35 horsepower motor; it has ample five passenger capacity for family comfort; it has handsome and brilliant electric lights throughout—even under the graceful cowl dash; it has larger tires; it has a wheelbase of 114 inches.

There are Timken bearings; the high grade Schebler carburetor; the magneto is a Splitdorf and the speedometer is a jeweled Stewart. Everything is standard—the world's best.

Buy No Winter Tire

Until You See This Goodyear Innovation This Anti-Skid with Plain-Tread Smoothness This Thick, Tough, Sharp, Enduring

All-Weather Tread

Here is a tire which you can see excels all other anti-skids.

It gives you on dry roads all the ad-antage—all the smoothness, all the conomy—of the plain-tread tire. On wet roads—soft or solid—it gives an almost resistless gcip.

The tread is double-thick. It is

made of extra-tough rubber, toughened by a secret process. The grips are deep and endur-ing. They last for thousands of miles, and never all wear off.

The edges are sharp, and they stay sharp. And these edges, set at 45 degrees, face the skidding

The surfaces are broad and flat, giving plain-tread smoothness. The blocks are in alignment, following the tire's direction. So there is no vibration as with scattered projections.

Then the blocks widen out so they meet at the base. Thus every strain is spread over the fabric the same as with smooth-tread tires.

That's immensely important.
rate projections center the
strains at little points in the fabric, causing a short-lived tire.

Make a moment's comparison, and for all wheels at all seasons you are bound to adopt these treads. There are eight vital advantages which you will find in no other anti-skid.

Even last summer, All-Weather treads outsold our plain treads with

In winter these treads are essential. They should go on every wheel. Nothing of the kind has been made to compare with them. You can see that at a gianca,

Eight Others Cost More

There are eight anti-skids which cost more than All-Weathers, despite all our advantages. The reason is, each comes on a tire which has a much smaller output. Then mark the fact that All-Weather treads come on No-Rim-Cut tires, the most popular tires in the world.

These are the tires that can't rim-cut. These are the tires which are final cured on air, at an extra cost of \$1,500 daily. This is done to save countless blow-outs.

And these are the only tires in which hundreds of large rubber rivets are used to prevent tread separation.

on get all these exclusive features when you see No-Rim-Cut tires.

They combat the three greatest tire troubles.

No-Rim-Cut Tires With All-Weather Tread

They save so much that th tires for years have held the topmost place in Tiredom. And no man who knows them can fall to adopt them. Come let us prove this to you,

The Car a Lady CAN

NOW ON DISPLAY AMERICA'S FIRST CAR

One Year 111 Advance

Is a Season Ahead with the Vulcan Electric Gear Shift

You Merely Press Push Buttons and Electricity Does the Work These push buttons are located in a small dial placed in the center of the steering wheel. There is a button for each of the three speeds forward, reverse and neutral, also buttons for starter and horn.

Exceedingly Simple—Both Electrically and Mechanically

The Vulcan Electric Gear Shift is very simple, both electrically and mechanically. You probably know what electro-magnets are—they are nothing more or less than fron bars wound with electric wires. When an electric current is sent through the wires the iron bars become powerful magnets. When you press a push button controlling any of the gears and depress the clutch, the electric current is sent through the electro-magnet controlling the gear you want shifted, and the shift is instantly made with a pull of 150 pounds.

After you've feature in the

Car you'll under-stand why it's making such a hit

Bigger Than Other Successes of Recent Years

The self-starter was a great thing, so was electric lighting. But here's a greater feature. Starting the car is an occasional need-lighting the lamps takes place even less frequently but the gears are shifted time and time again every time the car is in use. The device, therefore, that entirely eliminates the throwing of the gears by hand and removes the danger of stripping the gears, is far more important than either of these features.

with an effortless ease that is astonishing.

This "put-it-up-to-the-car" plan of selling the Master "Six," is bound to win you as it is winning others every day.

On this "positive proof of merit" we have based our entire selling plan. And facts prove that buyers need only to see and feel in ofder

Those who ride, buy. They tell their friends about it; until thousands are talking about the car that sells itself.

A Car the Public Wants

The Ride of Rides

We have made many strong claims for the Master "Six." Claims

And the sensation grows greater as men learn that every claim

This is not the usual demonstration. In this ride we do more than show the comfort and luxury of the car. We put the Master "Six" through its paces—tests that prove its mechanical supremacy. We do things many cars cannot do at all. What others can do, we do

We put the burden of proof on the car Itself. No other maker

We offer you an easy way to test these claims: a way to find out the facts for yourself. We call it the Chalmers Standard Road Test-

so strong they have created a big stir in the motor world.

can be proven every fact verified by the car itself.

And the demand has just begun. At this writing, October 1st, we are fairly deluged with wires from dealers urging us to hurry additional shipments. Many dealers have come in person to the factory seeking more

And the demand will continue, for every Master "Six" sold becomes a Chalmers advertisement; every owner, a Chalmers sales-

How We Achieve the Low P

After a ride in the Master "Sir" wonder how we can offer it at the

wonder how we can offer it at the print of these cars we would have to charge \$3000, that's sure. But our chief item are distributed over a much larger ou. In our \$7,000,000 factory, economy duction has been 'perfected. Parts profits have been practically elimin making nearly everything in our or All bodies are mounted on the same That saves enormously in tools and me

The Right Price to Pa

These are some of the reasons \$2325 the Master "Six" can give you found in no other car at the prior, that greatly lengthen the life of the hold down renewal and operating co

To buy a car that lacks these even though the first cost be less

Whether you buy a car this year or later, we want you to feel free to take this Chalmers Standard Road Test now., It will not obligate you in the least. For you can't help talking to your friends about it and that is bound to repay us. We invite you to take this ride of rides.

destroys both lice and nits. The freatment should be repeated once spain in about ten days.

A helpful and suggestive letter! I am glad to secure the ramedy for motha and the casal burners will shall the recipe for burning ashes. The cure far vermin in the head apounds wenderfully simple and feasible. The appeal of the mother for help in this line has called out several replies, each siving varying cures, and I print them for the sake of those whe often through no fault of their own fall victims to this peat.

"When vermin are found on children's heads naturate the hair and head with alcohol or vineage; after twelve hours brush the hair well over a paper and nits stick to the hair, but these will upon of its lime, as the alcohol or vineage; and in the time have found a number of patients with vermin and have pareal years and in this time have found of this remody falled to cure. Notther liquid will hurst the hair, so dan't be afraid to try it. I prefer the alcohol, as is cleaness the head of all dust and dirt that may have collected there.

"The cure vermin on the head put over 10 central worth of flabberries a half pint or plut of whisky and let it stand twenty-four hours, then seek the head of all dust and dirt that may have collected there.

"To cave vermin on the head put over 10 central worth of flabberries a half pint or plut of whisky and let it stand twenty-four hours, then seek the head of a litude and dirt that may have collected there.

"Trank Havrn."

The eplarged finger joints are often due to the frying as an instrument of the first to try it. I prefer the alcohol, as is cleaness the head of all dust and dirt that may have collected there.

"Trank Havrn."

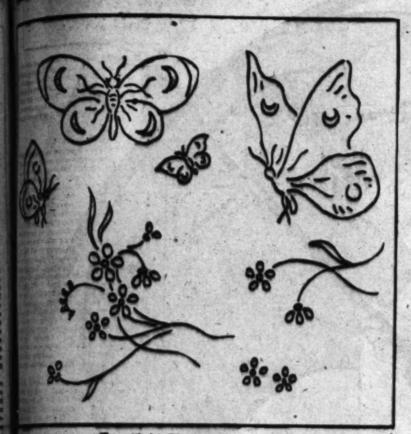

The eplarged finger joints are often deep the proper to central the half and what causes them?
